REPLACEMENT WINDOWFELTS

These are the seals on top of the door that scrapes the glass when rolling up or down. These replacement windowfelts do the same job as the original, but using a generic, less costly material. These may attach to the door and inside panels differently. These are great for a budgeted restoration or when the car is mainly a "driver".

The trunk spatter paint we sell is genuine GM, not sold by GM dealers in Canada. As these are water based, your trunk would benefit from a matte finish varathane type product to seal it. The varathane can be purchased from most hardware stores or your local Canadian Tire.
