"Your Satisfaction Is Our Success"

WELCOME TO ANTIQUE CHEVROLET PARTS

Thank you for taking the opportunity to browse our catalogue. We have filled this catalogue with the largest selection of quality restoration parts on the market today. To that end, we have even gone to the extent to list the same part more than once if it is available from different sources, such as if the part was made in the USA or offshore. It has been our experience that the offshore parts are quite comparable to their US-made counterparts. However, due to the economics of the world, the offshore parts generally tend to be less expensive than the US-made parts. As usual though, there are exceptions to this rule and we will do our best to advise you if there is a tangible difference between the parts. As the restoration parts market is ever-expanding, it is impossible to list every item that is available in this catalogue. Therefore, if you don't see something listed in our catalogue that you need, please give us a call and we will see if we can get it for you. Sometimes these "quotes" can take some time as our orders must take priority, but we will answer your questions as quickly as we can. Thank you for your patience and understanding in this regard. As you can see, our parts catalogue and our price list are separate. We have taken this route in an effort to keep you as informed and as up to date as possible. It is much easier to update separate price lists and catalogues than it is if they are combined. We believe that this catalogue will be one of the most helpful tools that you will have in the restoration of your vehicle.

ORDERING INFORMATION

We gladly accept orders over the telephone, by fax, mail, email and of course if you are in the area, at our shop. No matter what the method, the procedure remains basically the same.

In most cases, we will require all of your vehicle information, your name, address and a daytime telephone number. Please be prepared with the part numbers and part descriptions that you require. All orders must be accompanied by a Visa or a MasterCard number and expiration date for security purposes.

Please contact us using your method of choice, and we will get your order rolling.

Please note that we don't have a secure web site at this time for ordering purposes. Also, please do not include any credit card information via email. Please call with this information.

OBTAINING YOUR ORDER

PICKING YOUR ORDER UP

If you are local to us, and you would like to pick your order up, you are welcome to do so. We look forward to meeting our customers in person whenever possible. **No need to call us to see if your order is in, because we will call you as soon as we have all, or the majority of your order.** Once we have notified you that your order is ready for pick up, you have one week to contact us to arrange pick up and payment. **After one week, if you haven't made arrangements for pick up and payment of your order, you will be contacted and advised that payment of your order will be charged to the credit card that you provided us with at the time that your order was initially placed.** You can then pick up your order at your earliest convenience. Otherwise, parts may be returned to stock and the order may be considered cancelled.

HAVING YOUR ORDER SHIPPED

If you are not local to us, we can ship your order to you. We try to get as much of your order together as possible before we ship it to you in order to keep your shipping costs down. If we have to backorder an item or items to you, we will follow up with subsequent shipments when it seems reasonable to do so. However, if you have specific needs, let us know and we will try our best to accommodate you. We can ship to either residential or business addresses, although it is best to have the order shipped to a business address. Certain oversized items can only be shipped to a business address, which we will advise when necessary. All orders are insured against loss or damage.

We typically use Canada Post, CanPar and Fedex for our carriers. We have found them to be the most reliable and economical carriers. If you have another preferred carrier, **we must be provided with your specific account number with that carrier.** A packaging & handling fee will still apply, based on the time and materials required to package the shipment and completing your carrier's documentation.

For some larger shipments we must use a trucking firm. We will decide which one is best at the time of the shipment. It is preferred that we are provided with a business address when these truck shipments are required.

In some cases, we may have your parts drop shipped directly from the supplier. In these cases, the supplier uses the best means possible based on their experience. Choosing your own carrier in these cases is not possible.

In most cases the shipping charge cannot be determined until the shipment has been packaged. The rate is determined by the destination and the weight (either by actual weight or by dimensional volume) of the shipment. Therefore, if required, we can only estimate the cost of a particular shipment.

Handling charges are dependent upon the time and materials required to package the shipment. In any event, our handling charges are more than reasonable given the care and diligence required to ensure that your goods are packaged safely.

Our minimum "Shipping & Handling" charges are \$3.00 for an envelope and \$12.00 for the smallest boxed shipment. We combine the two charges into one on your invoice.

Please inspect the condition of the packaging of your shipment when received before you sign for it. If there are any visible signs of damage, note them in writing with the carrier. In most cases like this, we will provide you with a replacement shipment and we will handle the damage claim with the carrier. The damaged item is usually retained by the carrier or returned to us.

If you receive a shipment, sign for it, and then notice that it is damaged, contact the carrier right away. You then must contact us. Keep all packaging and parts related to the shipment. They may be required if an inspection of the damaged shipment needs to be made. Once again, in most cases, a replacement shipment is made to you and we handle the damage claim with the carrier. The carrier will usually retain the damaged item.

Lost shipments are replaced by us and the loss claim is handled by us.

On occasion and subject to approval, we will send a shipment "Cash on Delivery". We prefer not to, but we may on occasion to do so for our customers, depending on the circumstances. An extra COD fee applies. Payment in advance by certified cheque or money order may be required instead.

INSPECTING YOUR PARTS

Whether you have picked your parts up at our shop or if we have shipped them to you, inspect them as soon as you get them! Please check and make sure that what you received is what you were invoiced for; check the colour, check the fit, check the descriptions on the labels, check, check, check! We realize that parts can be stockpiled months in advance of use, but the longer you have something, the more difficult it is for us to rectify a problem, either internally or with our suppliers. Please help us to avoid a possible uncomfortable situation and **inspect your parts thoroughly as soon as you receive them and let us know within 30 days.**

If a problem arises with an order that you have received, please contact us right away and we will do everything possible to resolve the problem to everyone's mutual satisfaction.

WELCOME TO ANTIQUE CHEVROLET PARTS

AVAILABILITY OF PARTS

We stock a large selection of these items in our warehouse in Dundas and we draw from a number of local sources, where possible, which helps make delivery times better than ever. If we don't have something in stock, delivery times to us vary from a couple of days to two to three weeks, depending on the source. We can "put a rush" on parts that we have to order in, but that usually involves air freight from the USA which tends to be **very** expensive. Also, many of these parts are manufactured when we order them and the manufacturers are generally unwilling or unable to adjust their production schedules to accommodate specific requests. We know that you want your parts quickly and we will do our best to get them for you as quickly as possible.

On occasion, certain items may be on backorder from our preferred supplier. In cases such as this, please let us know if you would like us to try a secondary source. The price of the part may be a little more, but sometimes if you need something quickly, it is unavoidable. Consider also that this option is not always available to us.

EXCHANGES AND RETURNS

If for some reason you need to exchange something, we typically need to receive the part that you wish to exchange back at our shop for inspection before we can consider replacement. If you are not local to us, you may be required to mail back (by Canada Post ground service) the item to be exchanged. If applicable, return freight costs will be refunded to you. All exchanges must be authorized in advance and accompanied by a copy of your receipt of the original purchase. **A 30 day time limit applies to all exchanges & returns.**

All returns must be authorized and accompanied by a copy of your receipt of the original purchase. Returns may be subject to restocking charges. The restocking charge depends on what is being returned, but it is typically 30%. Some items such as literature, electrical items, wiring and special order items are non returnable. All return shipments must be prepaid.

PRICING

We do our best to establish our prices at a reasonable and competitive level. Due to fluctuations in the Canadian dollar and ever changing supplier costs, this can be a challenge. Rest assured that we are constantly updating our prices and we will do our best to keep prices accurate and competitive. If there has been a dramatic price change in an item that you have ordered, we will let you know about it.

STORE HOURS

Our store hours are as follows:

Monday through Friday	9:00 am to 5:30 pm
Saturday	9:00 am to 12:00 pm
Saturdays During Long Weekends	For our staff Closed
Sunday & Statutory Holidays	Closed

These hours can vary due to flea markets, seasonal needs, vacations or personal situations. **It is a good idea to always phone first!**

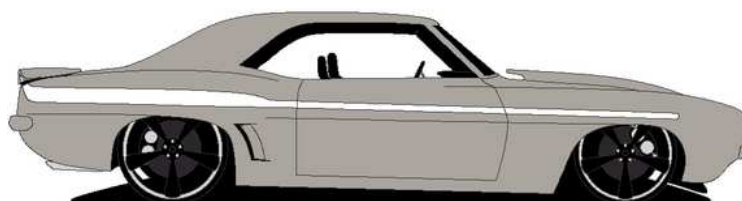

OUR GOALS

Our goals are to supply the best quality parts at competitive prices in a timely fashion all while treating our valued customers with respect and dignity. If there are any problems, we will do our very best to resolve them in a timely and mutually satisfactory manner. We hope that you can appreciate our goals and that you will work together as you proceed with your restoration, whether it be one or two parts, or a complete vehicle!

WEBSITE

Check our website from time to time as we update our "Current Specials", with new parts offered at introductory prices, close-outs and over-stock items priced to sell here at Antique Chevrolet Parts. Check it out at www.antiquechev.com

Chevrolet CAMARO Z28

To compete in the prestigious Trans Am championship, the rules required that Chevrolet had to build 1,000 suitable cars ready for sale to the public to homologate the car for racing. The result was the Z28, a racing car for the road.

Specifications

1968 Chevrolet Camaro Z28

ENGINE
Type: V8
Construction: Cast-iron block and heads
Valve gear: Two valves per cylinder operated by single block-mounted camshaft via pushrods and hydraulic lifters
Bore and stroke: 4.0 in. x 3.0 in.
Displacement: 302 c.i.
Compression ratio: 11.0:1
Induction system: Single four-barrel 800-cfm Holley carburetor
Maximum power: 250 bhp at 5,800 rpm
Maximum torque: 290 lb-ft at 4,200 rpm

TRANSMISSION
Three-speed automatic or four-speed manual

BODY/CHASSIS
Unitary steel construction with two-door coupe body

SPECIAL FEATURES

The 302-cubic inch engine was new for the Z28. It combined 327 block with a 283 crank to achieve a capacity of less than 305 cubic inches for SCCA racing.

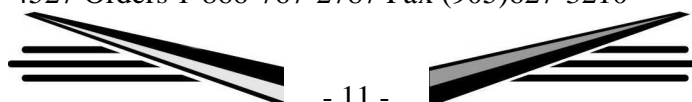

This car has been fitted with a roll cage to comply with SCCA racing regulations.

RUNNING GEAR
Steering: Recirculating ball
Front suspension: Double wishbones with coil springs, telescopic shocks and anti-roll bar
Rear suspension: Live axle with multi-leaf semi-elliptic springs and telescopic shocks
Brakes: Front vented discs, 11 in. dia. and rear drums, 9 in. dia.
Wheels: Steel disc, 7 in. x 15 in.
Tires: Goodyear Wide/road E70-15

DIMENSIONS
Length: 184.7 in. Width: 72.5 in.
Height: 51.4 in. Wheelbase: 108 in.
Track: 59.6 in. (front), 59.5 in. (rear)
Weight: 3525 lbs.

Weatherstrips, Gaskets & Rubber Parts

DOOR WEATHERSTRIPS

All of our door weatherstrips have the pins installed and moulded ends where original. Careful installation using our GM weatherstrip cement (see B309200) will give a superb fitting product.

FA303500	67	Door weatherstrips	pair
FA303750	68-69	Door weatherstrips	pair

ROOF RAIL WEATHERSTRIPS

FA304500	67	Roofrail weatherstrips (hardtop)	pair
FA304750	68-69	Roofrail weatherstrips (hardtop)	pair

WEATHERSTRIP ADHESIVE

To do a superior job use the genuine GM black weatherstripping cement (not the yellow brand or silicone) between the pins to prevent "bridging" or "bulging" on hot days. One tube typically does one vehicle.

B309200	all	Weatherstrip cement	each

Weatherstrips, Gaskets & Rubber Parts

WINDOWFELT KITS

We offer two kinds of windowfelts. Authentic and replacement styles.

Authentic style windowfelts are made from original materials from the manufacturers that made them for GM. Most feature a small rounded stainless bead and all have the rubbing blocks where needed. **Note:** Please specify year and model when ordering.

<u>AUTHENTIC 8 PIECE SET</u>		
FA645010	67	Windowfelt kit (8 pc coupe) kit
FA645011	67	Windowfelt kit (8 pc convertible) kit
FA645020	68	Windowfelt kit (coupe without special exterior mouldings, with standard interior) kit
FA645025	68	Windowfelt kit (conv without special exterior mouldings, with standard interior) kit
FA645030	68	Windowfelt kit (coupe without special exterior mouldings, with deluxe interior) kit
FA645035	68	Windowfelt kit (conv without special exterior mouldings, with deluxe interior) kit
FA645040	68	Windowfelt kit (coupe with special exterior mouldings, with standard interior) kit
FA645045	68	Windowfelt kit (conv with special exterior mouldings, with standard interior) kit
FA645050	68	Windowfelt kit (coupe with special exterior mouldings, with deluxe interior) kit
FA645055	68	Windowfelt kit (conv with special exterior mouldings, with deluxe interior) kit
FA645060	69	Windowfelt kit (coupe with standard interior) kit
FA645070	69	Windowfelt kit (coupe with deluxe interior) kit
FA645080	69	Windowfelt kit (conv with standard interior) kit
FA645090	69	Windowfelt kit (conv with deluxe interior) kit

<u>AUTHENTIC OUTERS ONLY</u>		
FA645012	67	Windowfelt kit (outers only)(coupe) kit
FA645014	67	Windowfelt kit (outers only)(conv) kit
FA645072	68	Windowfelt kit (outers only)(HT) (with special exterior mouldings) kit
FA645074	68	Windowfelt kit (outers only)(conv) (with special exterior mouldings) kit
FA645076	68-69	Windowfelt kit (outers only)(HT) (without special exterior mouldings) kit
FA645078	68-69	Windowfelt kit (outers only)(conv) (without special exterior mouldings) kit

Replacement style windowfelts are just that, replacements. They are made from a generic felt that features a flat strip of stainless. These are fine if you are selling the car, or if function and cost is more important than looks. **Note:** Please specify year and model when ordering.

FACTORY FIT WIRING HARNESSES

Factory Fit (also known as American Auto Wire) has been manufacturing quality wiring harnesses for General Motors vehicles from 1955 to 1982 for nearly 30 years. The Factory Fit® line of wiring harnesses is widely known as the symbol of excellence in after market wiring components. **Note: below is for Camaro, but several will be the same as Firebird. Please call for Firebird harnesses. When ordering, please give as much information on your vehicle as possible, such as engine, transmission, dash characteristics, model, accessories etc...**

The **Classic Update Kit** is a complete wiring system that allows for the addition of modern conveniences in yesterday's vehicles - without compromising wiring appearance or integrity. There are no other kits on the market that compare to the depth of features and ease of installation that the Classic Update Kit offers. All **Classic Update Kits** were built around, and in conjunction with, other industry leaders so our kits accept the connections of many top name aftermarket manufacturer's products such as, Autometer, Classic Instruments, Dakota Digital, Flaming River, Hot Rod Air, Ididit, Stewart Warner, Vintage Air, and VDO. **Classic Update Kits** are engineered specifically for the exact requirements of the vehicle.

FA500661	67-68	Camaro classic update kit	kit

FA500886	67-68	Firebird classic update kit	kit

67-68 Chevy Camaro

- 1** Replacement headlight switch with internal 30 amp circuit breaker included. Retention collar nut, adjustable length shaft, and custom knob are also included.
- 2** Standard turn signal flasher, hazard flasher, and horn relay mounted remotely on harness.
- 3** Fuse box designed to fit in original location. All required hardware supplied. New ATO fuse box allows easy fuse and circuit breaker accessibility. Harness allows for nearly all aftermarket accessories such as: gauge packages, wiper systems, heat and air conditioning systems, etc.
- 4** Original switch connector bodies! (Exclusive to American Autowire)
- 5** Steering column connectors will plug directly into most aftermarket steering columns as well as 1969 and later GM columns which utilize stock GM turn signal switches. The original column can also be wired by using the supplied mating connector and terminals.
- 6** Original Dash Panel Instrument Cluster Connector
- 7** Along with wiring for your original dome/interior lighting, separate under dash light sockets are included.
- 8** Original light sockets! (Exclusive to American Autowire)
- 9** Instrument Cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. All original terminals, connectors (exclusively from American Autowire), and light sockets are also supplied for original cluster gauges. However, the best aspect of the disconnect system is that any gauge cluster package can be easily and neatly wired in. This includes AUTOMETER, CLASSIC INSTRUMENTS, CLASSIC DASH, DAKOTA DIGITAL, STEWART WARNER, and VDO just to name a few.
- 10** New ignition switch, lock cylinder, and keys are included with indexed connector. Additionally the system comes with column mounted ignition switch connectors for adapting late model columns (67-68 models).
- 11** Rear body harness assembly is designed to plug into the main harness in the original connector bodies. Flexibility in harness design allows for original or custom routing. Rear body wiring includes backup light wires and mating connectors for backup light leads. License plate lead, connectors, and terminals included. Fuel tank sender wire and terminal included.
- 12** EXCLUSIVE! You'll find all the original style light socket pigtailed into every aspect of this system making it the most complete system of its type in the industry!
- 13** New floor dimmer switch is provided. Wire length and connection accommodate original floor mount dimmer switch.
- 14** Original bulkhead connector for the engine and front light wiring is included and ready for installation.
- 15** Original boots for every location needing protection!! (Exclusive to American Autowire)
- 16** Engine wiring includes connectors for original points type as well as HEI distributors. Power and tach connectors supplied for GM HEI distributors. Alternator connectors are supplied for GM "SI" series internally regulated alternators. GM "CS" series alternator adapter is available separately.
- 17** Front lighting includes extra long leads for special routing when custom under hood appearance is desired. All headlight, park light and directional light connectors and terminals are provided, as well as a switched trigger wire for electric fan relay (usually recommended with AC).

67 RS HIDEAWAY HEADLAMP SYSTEM KIT

Packaged in a single double wall heavy duty logo box. Complete and technically correct. Contains all mechanical and needed electrical component parts of the Hideaway Headlamp option, including hardware. USA assembled RH and LH Headlamp assemblies include: Housing, hinge plate, door backing plate, outer black headlamp door cover with molding (attached with correct rivets) and door stop cushion, pivot arm, motor mounting plate, drive washer and nut set, sealed beam adjusting screws, all bushings, nuts and hardware. includes RH and LH latest generation Headlamp motors, Relay mounting plate, Three "Delco-Remy" script headlamp relays, four Headlamp limit switches, Switch hardware set, Limit switch bracket set, Switch bracket hardware set, System circuit breaker, and a complete hardware installation pack. Includes a 1967 Assembly Manual with an illustrated 12 page section on installation. **(Note: Adapter brackets to convert standard to RS fenders not included. Available separately with kit purchase only.)**

F612400A 67 RS hideaway headlamp system kit kit

68 RS HIDEAWAY HEADLAMP SYSTEM KIT

Includes: Headlamp housing, hinge plate, door backing plate, outer black headlamp door cover with molding (attached with correct rivets) and door stop cushion, bellcrank, lower bellcrank support bracket with blind nuts, over center mechanism, spring, beam adjusting screws, all bushings and hardware. Includes a 1968 Assembly Manual with an illustrated 17 page section on installation. Includes Fenderwell Templates to accurately modify existing standard front fenderwells. Includes headlamp switch, vacuum relay assembly, core support door stop brackets pair, two vacuum actuators, vacuum tank, actuator shields-pair, color coded system hose kit, two actuator clevis pin sets, actuator rear support brackets-pair, with two clamp brackets and a complete hardware installation pack.

F612400B 68 RS hideaway headlamp system kit (with chrome edged doors) kit

F612400C 68 RS hideaway headlamp system kit (with plain edged doors) kit

69 RS HIDEAWAY HEADLAMP SYSTEM KIT

Includes: Headlamp housing with installed hinge plate bumper, hinge plate, door cover backing plate, bellcrank, bellcrank support bracket, over center spring, correct sealed beam adjusting screws and spring, all bushings and necessary hardware. Includes a 1969 Assembly Manual with an illustrated 17 page section on installation. Includes Fenderwell Templates to modify existing standard front fenderwells. Includes headlamp switch, vacuum relay assembly, core support door stop brackets pair, two vacuum actuators, vacuum tank, actuator shields pair, color coded system hose kit, two actuator clevis pin sets, actuator rear support brackets-pair, with two clamp brackets, and a complete hardware installation pack.

CLUTCH LINKAGE KIT

Kits are complete with all individually available technically correct components required - from pedal to clutch fork. (Clutch fork not included). Assembly diagram included. Superior heat treated components with correct protective finishes as original. Kit includes: Upper push rod, upper rod boot, 3 rod clips, frame side bracket, block side stud with seal, frame side ball stud with nut and washer, pair of bellcrank felts, lower adjustable rod, return spring, extension wire, clutch fork to bellhousing rubber boot, bellcrank assembly with installed pivot kit and zerk fitting.

FA699070	67-69	Disc brake spindles, caliper brackets and dust shields (two front wheels)	set

DISC BRAKE CONVERSION KITS

We have tried a few different suppliers and we have found that the **Right Stuff Detailing** has the best kits available for the right price. Complete disc brake conversion kits are available and includes the following:

- 7" booster with dual master cylinder, bracket & rod with clevis to mount to the firewall (see side bar for other optional sizes available for extra cost)
- 2 rotors
- 2 hoses
- Dust caps
- roller bearings
- disc brake spindles
- Proportioning valve & hardware
- Detailed instructions
- 2 calipers & pads
- 2 seals
- set of caliper brackets with hardware
- Mounting bolts
- Backing plates (dust shields)(Note! does not work with 2" drop spindles)
- Bleeder kit
- Optional upgrades available

The complete disc brake kit does not include the hard lines from the proportioning valve to the brakes. It is so much easier if you buy them, however. Makes the whole job much easier, and will save you money in the long run. See FA699090 for the lines made from the original steel and FA699095 for the lines made from stainless steel.

FA699080A	67-69	Power disc brake conversion kit	set
FA699080B	67-69	Manual disc brake conversion kit	set
FA699090	67-69	Proportioning valve to wheel lines (OM)	set
FA699095	67-69	Proportioning valve to wheel lines (SS)	set

FREE ALTERNATIVES

- 7" dual diaphragm booster. Use if vacuum is low
- 8" dual diaphragm booster. Use if vacuum is very low
- 9" single slimline booster. Good for most conversions
- 9" Delco style booster. Use for 64-66 authentic appearance & for 67-72 if clearance of 11" is a problem
- 11" Delco style booster. Looks authentic for 67-72. Lots of vacuum

OTHER ALTERNATIVES

(additional costs to the changeover kit)

- 9" Delco style booster. Stamped "Delco Moraine" for authenticity
- 11" Delco style booster. Stamped "Delco Moraine" for authenticity

REAR DISC CONVERSION KIT

We can now offer rear disc conversion kits available from Right Stuff Detailing. The complete kits include the following;

- GM rotors
- New loaded calipers
- Caliper brackets & spacers
- Bracket hardware
- Flex hoses & brackets
- Emergency brake cables

FA699085 67-69 Rear disc brake conversion kit)(fits kit
10 & 12 bolt rear ends)

STANDARD SUSPENSION KIT

This kit makes it easy to order the front suspension parts needed in a restoration. They include the following

Upper & lower ball joints
Upper & lower control arm bushings
Sway bar bushings
Tie rod adjustment sleeves
Inner & outer tie rod ends
Sway bar link kits

FA695000	67-69	Standard front suspension kit	kit
FA316750	67-69	A-arm bumper (upper)	each

Stencils & Decals

Made from original diagrams, these stencil & stripe kits should make your Camaro look like new again. Note: GM often painted the front of the fenders and header areas while using stickers to finish the car.

Interior

IDIDIT STEERING COLUMNS

We can now supply the popular Ididit steering columns for the F-bodies. Each is fully wired and comes equipped with 4-way flashers, self canceling turn signals, horn wiring, and the Ididit Aluminum Dress-Up kit (aluminum levers & knobs). Column shift columns also come equipped with a built in neutral safety switch as well as an automatic shift mechanism which will use the stock dash indicator. All Ididit columns use a strong 1" DD shaft and an industry standard 3 7/8" GM wiring harness connector. They are designed for use with the stock steering wheels, post 1969 steering wheels or others can be used with optional adaptors.

SEAT COVERS

All our seat cover sets are correctly patterned and sewn precisely for an authentic factory fit. They are comprised of the most correct vinyls, backings, and welting available anywhere! Please be sure to give all the necessary information when ordering, such as year, model, and colour (trim number).

Note: The seat cover set consists of both the front seat (2 buckets or bench) and the rear seat cover.

SEAT COVER INSTALLATION KIT

This kit gives just enough to assemble the covers to the seat frame. It is available as a cheap kit, meant for one restoration before you feebly throw the tool against a wall with your swollen knuckles, or a better quality tool in the better kit for long lasting service. Also available is extra hog rings as we know the supplier includes the barest minimum of rings to do the job.

STANDARD INTERIOR SIDE PANELS

A lot has happened to improve interior panel quality and selection. We can supply door and quarter upholstery many ways. **Note:** Don't forget your Trim # for colour selection, and choose the part number below.

Selection 1 - If you have your old panels, you can re-use the little emblems, any stainless trim strips and upper curved rails and inner windowfelts. This is the economical method, and it takes a little effort. Parts Unlimited Inc. (P.U.I.) will continue to be our major source of these top quality yet economical side panels.

Selection 2 - Recently P.U.I. has developed "Platinum Edition" GM. panels. These panels have cardboard inserts glued under each pleat giving a chiselled look and are more firm. They also have the small vertical chrome emblems installed. We recommend this approach for show cars, as we feel the difference is not great, but will give the fussy restorer an interior a little more exact like original.

Selection 3 - P.U.I. also supplies our #3 style, but they are almost totally assembled for you. The panels come with stainless strips and curved top rails installed complete with original style windowfelts and lock ferrules, and only lack the push-in clips to the door, and the emblems. These panels eliminate most of the effort required to prepare them for installation.

Selection 4 - Our Selection #2 "Platinum Edition" panels are assembled as in selection 3. These allow P.U.I.'s premium panels to easily go on your doors and quarters.

DELUXE INTERIOR SIDE PANELS

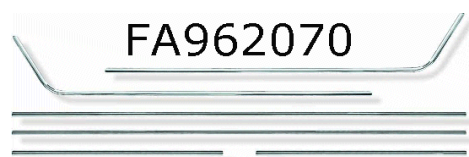

These OER panels are exact reproductions of the original deluxe door panels. These deluxe front door panels are an excellent replacement for your worn or missing originals. Front door panels do not come with chrome moldings, bezels or cups. Rear matching side panels are made by Parts Unlimited Inc and match the fronts perfectly. 1967 Deluxe side panels and corresponding parts are proper for both the Camaro and Firebird.

HEADLINERS

There are many variations of headliners available on the market today. Look at your existing headliner to determine the type of vinyl used. We sell the headliners with covered sail panels. They also come with extra material to recover the sunvisors. **PLEASE SPECIFY YEAR, MODEL, COLOUR AND A DESCRIPTION OF THE MATERIAL USED.**

CARPETS

We now have two reliable sources for carpets. Between our two suppliers we can supply carpets for most cars and trucks from 1949 right into the present! Materials and colours are available to match almost any vehicle's interior. These carpets are factory moulded and come with the jute backing and sewn in heel-pad.

Don't forget to order a carpet for your newer car or truck, too. Why drive every day in a shabby environment?

CONVERTIBLE ITEMS

We buy our tops from ACME Auto Headlining Company. ALL manufacturers fabricate from the same source of materials (usually vinyls extruded onto cloth backing). The weight of the materials is consistent throughout the aftermarket industry. ALL glass windows come from the same source.

FA960000	67-69	Convertible top (with plastic window and pads, black or white)	set
FA960005	67-69	Convertible top (with glass window and pads, black or white)	set

VINYL TOPS

Seems out of place in the interior section, but that's where other catalogues list them. Our vinyl tops, or Landau tops are made with the correct Levant grain vinyl and sewn with Dacron bonded thread, dielectrically double seamed to give it the correct appearance. Available in black, white, buckskin, green and the custom colour, dark blue. Please specify year, colour and model when ordering.

FA960600	67-72	Vinyl (landau) top (except dark blue)	each
FA960610	67-72	Vinyl (landau) top (dark blue)	each

PACKAGE TRAYS & INSULATION

The package tray is often sun-baked or water stained over the years as it is the piece between the rear window and rear seat. It features coloured textured cardboard and a vinyl strip that matches the interior colour. Available in most original interior colours. Keep in mind when shipping a package tray, it is often as expensive as the tray itself. It is recommended to get the rear seat to trunk board at the same time to save on shipping. **Please specify year & colour when ordering.**

FA960750

FA960750	67-69	Package tray	each
FA960850	67-69	Mesh package tray	each
FA960950	67-69	Package tray insulation	each

REAR SEAT TO TRUNK BOARDS & INSULATION

Often called a trunk divider, the rear seat to trunk board is the panel that finishes off the trunk area by hiding the seat springs from sight. Available for most models. Please specify year and model when ordering. It is recommended to get the package tray at the same time to save on shipping.

FA961000

RetroSound™

Modern Sound for your Classic

This is a breakthrough classic car radio offering flexible mounting options with infiniMount shaft/bracket system (patent pending), USB input for MP3/WMA digital file playback from popular flash devices, this is awesome-- no iPod needed, use ANY Flash Drive/Thumb drive with your digital files on it!!!, There's even a front panel Auxiliary input so you can plug in any device you want too!! , Remote control and hideaway installation capability. The Model One was created to meet the needs of classic car enthusiasts for a radio that maintains the classic in dash look of the vehicle while offering modern playback capabilities from today's digital music sources. An optional 94" remote mount infrared "eye" allows for complete hideaway placement of the Model One, allowing a completely stock appearance. Any car, RV, motorcycle! Modify the faceplate and the radio Not your dash!

The included U Bracket allows for under dash mounting options and the unit can be mounted virtually anywhere due to its small 3.54" w X 6.57" d X 1.57" h footprint. Advanced installers can unscrew the Model One's faceplate and adjust its cant/angle to allow for even more customization! There are multiple faceplate & knob kits available, and RetroSound even offers a Universal faceplate that fits the Model One's faceplate which allows the installer to use the integrated break away tabs to modify all aspects of height & width of the plate, and even drill in their own shaft holes to fit virtually any car! This radio is a true problem solver for tough to fit applications, its unique bracket system combined with small mounting size and incredible feature set is setting the classic radio market on its side, you will not find any radio that will fit in more cars out of the box than this one!

General features:

- * Am/Fm Tuner w/ 30 Presets
- * New RDS capable tuner, to view song titles on fm stations that broadcast text information
- * Built-in amplifier (20 watts x 4 RMS/ 40 watts peak x 4 channels)
- * Plays Mp3, WMA, files via remote mountable USB & SD card reader (.5 meter cable)
- * Patented infiniMount shaft/bracket system for maximum installation flexibility
- * Adjustable-angle, easy to read LCD display w/ improved wider off axis viewing area
- * Compatible with optional vehicle specific faceplate and metal knobs to match your classic car
- * New 1" Shorter mounting depth for easier installation (5.37" mounting depth)
- * RF Remote control (perfect for hidden applications, has a 5 meter range)
- * Electronic Persistent Clock Function

Audio features:

- * 3 EQ presets plus user-controlled bass/treble/fader/balance adjustment
- * Loudness Control

Expandability:

- * Inputs: Rear mounted standard USB port, SD Port, and Front and Rear discrete Auxiliary inputs (Aux 1 & Aux 2)
- * Outputs: 4-channel preamp outputs (front, rear)
- * Separate Power Antenna & Amp turn on lead(s)

Other features and specs:

- * Manufacturer's warranty: 2 years

RetroSound™

Modern Sound for your Classic

Why purchase RetroSound™ speakers over your original or "other" commercially available speakers for your classic car?
Check out the exploded view below to learn more about the detail and quality that goes into each speaker we make!

This is an optional accessory for the RetroSound Model One radio, it allows you to remotely operate the model one if the main unit is out of view. Simply install the Infrared receiver in an unobtrusive portion of your dash (Cigarette lighter, blank area on the dash, etc) and if you've mounted the Model one in a glove box, or under the seat, you can still use the remote that came with your Model One to control all functions of your unit! The Model One unit can be used WITHOUT the shafts attached, so this gives some amazing flexibility for a self contained "mini" in vehicle entertainment system that has modern digital playback capabilities!

SST (Secretaudio System)

is a hidden audio system that offers great flexibility for mounting in any type of vehicle. The main receiver/amplifier unit is usually hidden under the seat, or behind the dash. A 10ft cord from the Tuner/Amp plugs into a LCD display. The system can be operated from up to 40 feet away with the included RF (radio frequency remote.)

This system features:

- AM/FM Stereo 200 watts 4x50
- RF Remote Control (radio frequency no line of sight required, up to 40' range)
- USB MP3/WMA Flash Drive Player
- iPod® Direct Control Interface (built into tuner/amp unit) 7' iPod Docking Cable Included
- Alpha Numeric LCD Display Shows Artist / Song Titles for USB, iPod® and Satellite Radio
- Satellite Radio Input (for optional Sirius® satellite radio tuner)

Custom Autosound

1967-1968 GM F Body without Factory Air

Kickpanels Available with:
CAM 6½" 60 watt speakers
KCAM-67/8
Pioneer 6½" 120 watt speakers
PIO-KCAM-67/8

Enhance your sound quality with these quality plastic moulded kick panel speaker assemblies! These kicks sounds great and affords a "no modification" fit!

These speakers are a perfect fit into the original kick panel area and features 6.5" three way speakers at **60 watts** power handling!
Or if you want you can upgrade these to Pioneer 120 watt speakers. (most models)
Without speakers also available (selected models only)

Dual Front Speakers

Since at least 2 speakers are required for stereo units Custom Autosound has designed and manufactured dual speaker assemblies! These **30 watt** assemblies are pre-wired to plug in instantly to our radios! These speakers can also be used as a rear speaker in some vehicles! Some vehicles need a bracket to aid in installation of these speakers and are pre-attached for you. Please call and we'll get what you need.

Want more power in your speakers? How about our Kenwood **50 watt** dual front speaker upgrade?

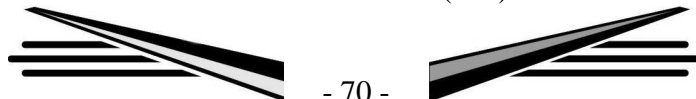

Dual Voice Coils (DVC)

Dual Voice Coils will give the best possible sound and power handling from OEM speaker locations. They give up to 70% more cone area than the conventional speaker set-up and provide **140 watts**. Both stereo channels connect to one speaker. Call us to determine which series your vehicle requires.

Custom Autosound

Custom Autosound USA-CD60 6 CD Disc Changer

For use with new model Secretaudio SS, and USA-630. This 6 disc changer connects directly with Custom Autosound radios. On the USA models, the changer works off the buttons on the radio face, and for the

Secretaudio SST model, the changer works from the RF (radio frequency) remote control. CD-60 features: 1 bit times oversampling, twin digital-to-analog converter, 3 beam laser tracking, disc select up/down, track up/down, 2 way scan and shuffle, play and pause control, program repeat, antishock and vibration free design -horizontal or vertical mounting. CD-60 Dimensions: 9 3/4" (w) x 3 1/2" (h) x 6 3/4" (d)

ANTUV-HIDE Hidden Amplified Antenna

For the best AM/FM reception nothing works better than a 31" vertically mounted antenna mast. Recognizing that application is impossible on some vehicles our improved amplified antenna is the next best thing. Mounts on the inside top of

windshield (or rear package tray) for best performance. Note radio signals cannot penetrate metal.

Do not attempt to hide this unit under the dash. Requires 12 volts.
