"Your Satisfaction Is Our Success"

\$5.00

This catalogue is to be used with our corresponding price list. Prices subject to change anytime.

WELCOME TO ANTIQUE CHEVROLET PARTS

Thank you for taking the opportunity to browse our catalogue. We have filled this catalogue with the largest selection of quality restoration parts on the market today. To that end, we have even gone to the extent to list the same part more than once if it is available from different sources, such as if the part was made in the USA or offshore. It has been our experience that the offshore parts are quite comparable to their US-made counterparts. However, due to the economics of the world, the offshore parts generally tend to be less expensive than the US-made parts. As usual though, there are exceptions to this rule and we will do our best to advise you if there is a tangible difference between the parts. As the restoration parts market is ever-expanding, it is impossible to list every item that is available in this catalogue. Therefore, if you don't see something listed in our catalogue that you need, please give us a call and we will see if we can get it for you. Sometimes these "quotes" can take some time as our orders must take priority, but we will answer your questions as quickly as we can. Thank you for your patience and understanding in this regard. As you can see, our parts catalogue and our price list are separate. We have taken this route in an effort to keep you as informed and as up to date as possible. It is much easier to update separate price lists and catalogues than it is if they are combined. We believe that this catalogue will be one of the most helpful tools that you will have in the restoration of your vehicle.

ORDERING INFORMATION

We gladly accept orders over the telephone, by fax, mail, email and of course if you are in the area, at our shop. No matter what the method, the procedure remains basically the same.

In most cases, we will require all of your vehicle information, your name, address and a daytime telephone number. Please be prepared with the part numbers and part descriptions that you require. All orders must be accompanied by a Visa or a MasterCard number and expiration date for security purposes.

Please contact us using your method of choice, and we will get your order rolling.

Please note that we don't have a secure web site at this time for ordering purposes. Also, please do not include any credit card information via email. Please call with this information.

OBTAINING YOUR ORDER

PICKING YOUR ORDER UP

If you are local to us, and you would like to pick your order up, you are welcome to do so. We look forward to meeting our customers in person whenever possible. **No need to call us to see if your order is in, because we will call you as soon as we have all, or the majority of your order.** Once we have notified you that your order is ready for pick up, you have one week to contact us to arrange pick up and payment. **After one week, if you haven't made arrangements for pick up and payment of your order, you will be contacted and advised that payment of your order will be charged to the credit card that you provided us with at the time that your order was initially placed.** You can then pick up your order at your earliest convenience. Otherwise, parts may be returned to stock and the order may be considered cancelled.

HAVING YOUR ORDER SHIPPED

If you are not local to us, we can ship your order to you. We try to get as much of your order together as possible before we ship it to you in order to keep your shipping costs down. If we have to backorder an item or items to you, we will follow up with subsequent shipments when it seems reasonable to do so. However, if you have specific needs, let us know and we will try our best to accommodate you. We can ship to either residential or business addresses, although it is best to have the order shipped to a business address. Certain oversized items can only be shipped to a business address, which we will advise when necessary. All orders are insured against loss or damage.

We typically use Canada Post, CanPar and Fedex for our carriers. We have found them to be the most reliable and economical carriers. If you have another preferred carrier, **we must be provided with your specific account number with that carrier.** A packaging & handling fee will still apply, based on the time and materials required to package the shipment and completing your carrier's documentation.

For some larger shipments we must use a trucking firm. We will decide which one is best at the time of the

shipment. It is preferred that we are provided with a business address when these truck shipments are required.

In some cases, we may have your parts drop shipped directly from the supplier. In these cases, the supplier uses the best means possible based on their experience. Choosing your own carrier in these cases is not possible.

In most cases the shipping charge cannot be determined until the shipment has been packaged. The rate is determined by the destination and the weight (either by actual weight or by dimensional volume) of the shipment. Therefore, if required, we can only estimate the cost of a particular shipment.

Handling charges are dependent upon the time and materials required to package the shipment. In any event, our handling charges are more than reasonable given the care and diligence required to ensure that your goods are packaged safely.

Our minimum "Shipping & Handling" charges are \$3.00 for an envelope and \$12.00 for the smallest boxed shipment. We combine the two charges into one on your invoice.

Please inspect the condition of the packaging of your shipment when received before you sign for it. If there are any visible signs of damage, note them in writing with the carrier. In most cases like this, we will provide you with a replacement shipment and we will handle the damage claim with the carrier. The damaged item is usually retained by the carrier or returned to us.

If you receive a shipment, sign for it, and then notice that it is damaged, contact the carrier right away. You then must contact us. Keep all packaging and parts related to the shipment. They may be required if an inspection of the damaged shipment needs to be made. Once again, in most cases, a replacement shipment is made to you and we handle the damage claim with the carrier. The carrier will usually retain the damaged item.

Lost shipments are replaced by us and the loss claim is handled by us.

On occasion and subject to approval, we will send a shipment "Cash on Delivery". We prefer not to, but we may on occasion to do so for our customers, depending on the circumstances. An extra COD fee applies. Payment in advance by certified cheque or money order may be required instead.

INSPECTING YOUR PARTS

Whether you have picked your parts up at our shop or if we have shipped them to you, inspect them as soon as you get them! Please check and make sure that what you received is what you were invoiced for; check the colour, check the fit, check the descriptions on the labels, check, check, check! We realize that parts can be stockpiled months in advance of use, but the longer you have something, the more difficult it is for us to rectify a problem, either internally or with our suppliers. Please help us to avoid a possible uncomfortable situation and **inspect your parts thoroughly as soon as you receive them and let us know within 30 days.**

Ordering Information & Shipping Policies

If a problem arises with an order that you have received, please contact us right away and we will do everything possible resolve the problem to everyone's mutual satisfaction.

AVAILABILITY OF PARTS

We stock a large selection of these items in our warehouse in Dundas and we draw from a number of local sources, where possible, which helps make delivery times better than ever. If we don't have something in stock, delivery times to us vary from a couple of days to two to three weeks, depending on the source. We can "put a rush" on parts that we have to order in, but that usually involves air freight from the USA which tends to be very expensive. Also, many of these parts are manufactured when we order them and the manufacturers are generally unwilling or unable to adjust their production schedules to accommodate specific requests. We know that you want your parts quickly and we will do our best to get them for you as quickly as possible.

On occasion, certain items may be on backorder from our preferred supplier. In cases such as this, please let us know if you would like us to try a secondary source. The price of the part may be a little more, but sometimes if you need something quickly, it is unavoidable. Consider also that this option is not always available to us.

EXCHANGES AND RETURNS

If for some reason you need to exchange something, we typically need to receive the part that you wish to exchange back at our shop for inspection before we can consider replacement. If you are not local to us, you may be required to mail back (by Canada Post ground service) the item to be exchanged. If applicable, return freight costs will be refunded to you. All exchanges must be authorized in advance and accompanied by a copy of your receipt of the original purchase. **A 30 day time limit applies to all exchanges & returns.**

All returns must be authorized and accompanied by a copy of your receipt of the original purchase. Returns may be subject to restocking charges. The restocking charge depends on what is being returned, but it is typically 30%. Some items such as literature, electrical items, wiring and special order items are non returnable. All return shipments must be prepaid.

PRICING

We do our best to establish our prices at a reasonable and competitive level. Due to fluctuations in the Canadian dollar and ever changing supplier costs, this can be a challenge. Rest assured that we are constantly updating our prices and we will do our best to keep prices accurate and competitive. If there has been a dramatic price change in an item that you have ordered, we will let you know about it.

Weatherstrips, Gaskets & Rubber Parts

DOOR WEATHERSTRIPS

All of our door weatherstrips have the pins installed and moulded ends where original. Careful installation using our GM weatherstrip cement (see B309200) will give a superb fitting product.

A307500

WEATHERSTRIP ADHESIVE

To do a superior job use the genuine GM black weatherstripping cement (not the yellow brand or silicone) between the pins to prevent "bridging" or "bulging" on hot days. One tube typically does one vehicle.

WINDOWFELT KITS

We offer two kinds of windowfelts. Authentic and replacement styles.

Authentic style windowfelts are made from original materials from the manufacturers that made them for GM. Most feature a small rounded stainless bead and all have the rubbing blocks where needed. **Note:** Please specify year and model when ordering.

70 CHEVELLE SS REAR BUMPER PAD

Moulded from high quality, ozone resistant rubber with stripe and SS pieces made from white plastic. This is using a new adhesion method of peel & stick tape. This is 3M brand VHB tape that is impervious to the normal elements that a car would endure. You had better be sure of placement as this tape will NOT let go. Instructions are included.

Weatherstrips, Gaskets & Rubber Parts

A363000	67	Body bumper kit (hood, door, glove box, and trunk)	kit
A363500	68-72	Body bumper kit (hood, door, glove box, and trunk)	kit
A364000	64-72	A-arm bumper (upper)	each
A364500	64-72	A-arm bumper (lower)	each
A364510	73-74	A-arm bumper (lower)	each

DIVISION BAR VERTICAL RUN CHANNELS

These channels are found on the backside of the vent window and allow the glass to rise and lower without it binding. They feature moulded top corners for that finishing touch.

A364990	64-68	Division bar vertical run channels (HT/conv)(with stops, specify year)	pair
---------	-------	--	------

VENT WINDOW WEATHERSTRIPS

A366240	64-65	Vent window seals (HT/conv)	set
A366250	64-67	Vent window seals (sedan/El Camino)	set
A366260	66-67	Vent window seals (HT/conv)	set
A366270	68	Vent window seals (HT/conv)	set
A366280	68-72	Vent window seals (sedan/El Camino)	set

TRUNK LOCK SEAL

This little item is often lost. It helps protect the opening from the elements where the retainer is.

A369400	68-69	Trunk lock retainer seal	each
---------	-------	--------------------------	------

FACTORY FIT WIRING HARNESSES

M. Parker Autoworks Inc. (a.k.a. Factory Fit or American Auto Wire) has been manufacturing quality wiring harnesses for General Motors vehicles from 1955 to 1982 for nearly 20 years. The Factory Fit® line of wiring harnesses is widely known as the symbol of excellence in after market wiring components. **Note:** When ordering, please give as much information on your vehicle as possible, such as transmission, dash characteristics, model, accessories etc...

A614130	70	Hood latch support	each
A614135	71-72	Hood latch support	each

BATTERY TRAYS & HOLD-DOWNS

A622500	64-65	Battery tray	each
A623000	66	Battery tray	each
A623500	67	Battery tray	each
A624000	68-72	Battery tray	each

A624500	64-65	Battery retainer	each
A625000	66-72	Battery retainer	each
A625500	64-65	Battery retainer "J" bolt	each
A626000	64-65	Battery bolt	each
A626500	66-72	Battery retainer bolt	each

HOOD PINS

A634500	70-72	Hood pin installation kit (complete)	each
A429500	70-72	Hood hold down plate gaskets	pair

COWL VENT GRILLES

These often missing grilles are found in front of the windshield. They keep such crud like leaves, small animals and other unwanted objects from falling town inside the car. They are made from ABS plastic that clip into place. The set for air conditioning are for cars with the vacuum actuator on the right hand side.

A439000	68-72	Cowl vent grilles (3 pieces)(no air)	set
A439010	68-72	Cowl vent grilles (3 pieces)(with air)	set

WIRE GUTTER & RETAINERS

A425500

These unassuming parts are a must in any restoration. The firewall gutter runs along the back of the firewall and helps protect the wires. It is made from plastic and measures 13" long. The inner fender wire retainer simply secures the wires on the inner fender and keeps the wiring from getting close to the engine.

A425500	64-72	Firewall wiring gutter	each
A423500	64-72	Inner fender wire retainer	each

A423500

FAN SHROUDS

SUSPENSION KITS & PARTS

We now offer the Right Stuff suspension kits for the 64-72 Chevelle, Beaumonts and El Caminos. These kits include the following items;

- Lower ball joints (x2)
- Upper ball joints (x2)
- Upper control arm bushings (x4)
- Lower control arm bushings (x4)
- Sway bar bushings (x2)
- Sway bar link kits (x2)
- Tie rod adjustment sleeves (x2)
- Inner tie rods (x2)
- Outer tie rods (x2)

Note: For 1966, please measure the lower control arm diameter.

DISC BRAKE CONVERSION KITS

Chevelle, El Camino & Beaumont Volume 9

Phone: (905)627-4527 Orders: 1-866-767-2787 Fax: (905)627-3210

Underhood & Drivetrain Parts

We have tried a few different suppliers and we have found that the **Right Stuff Detailing** has the best kit available for the right price. A complete disc brake conversion kit is available and includes the following:

- 7" booster with dual master cylinder, bracket & rod with clevis to mount to the firewall (see side bar for other optional sizes available for extra cost)
- 2 rotors
- 2 hoses
- Dust caps
- roller bearings
- disc brake spindles
- Proportioning valve & hardware
- Detailed instructions
- 2 calipers & pads
- 2 seals
- set of caliper brackets with hardware
- Mounting bolts
- Backing plates (dust shields)(Note! does not work with 2" drop spindles)
- Bleeder kit
- Optional upgrades available

The complete disc brake kit does not include the hard lines from the proportioning valve to the brakes. It is so much easier if you buy them, however. Makes the whole job much easier, and will save you money in the long run. See A699090 for the lines made from the original steel and A699095 for the lines made from stainless steel.

A699080	64-72 Power disc brake changeover kit	set
A699085	64-72 Non power disc brake changeover kit	set

FREE ALTERNATIVES

- 7" dual diaphragm booster. Use if vacuum is low
- 8" dual diaphragm booster. Use if vacuum is very low
- 9" single slimline booster. Good for most conversions
- 9" Delco style booster. Use for 64-66 authentic appearance & for 67-72 if clearance of 11" is a problem
- 11" Delco style booster. Looks authentic for 67-72. Lots of vacuum

OTHER ALTERNATIVES

(add \$50.00 to the changeover kit)

- 9" Delco style booster. Stamped "Delco Moraine" for authenticity
- 11" Delco style booster. Stamped "Delco Moraine" for authenticity

A699090	64-72 Proportioning valve to wheel lines (OM)	set

REAR DISC CONVERSION KIT

We can now offer rear disc conversion kits available from Right Stuff Detailing. The complete kit includes the following;

- GM rotors
- New loaded calipers
- Caliper brackets & spacers
- Bracket hardware
- Flex hoses & brackets
- Emergency brake cables

A699100	64-72	Rear disc brake conversion kit)(fits 10 & 12 bolt rear ends)	each

QUARTER PANELS & RELATED

These quarter panels are just like the ones you used to get from GM, with the door jamb, wraps around the tail lamp and goes to the trunk opening on top. The quarters marked as less sail does not have the part from the quarter to the roof to save on shipping. These panels are **NOT** the same as the 1970 -1972 listed as "Factory Style" at A720500.

A716000	66-67	Full quarter panel (less sail)(left)	each
A716050	66-67	Full quarter panel (less sail)(right)	each

Literature

FACTORY ASSEMBLY MANUALS

These manuals are reprints of the actual factory instruction manuals and they are full of useful exploded views for that body-off restoration project.

AL14950	64-69	Factory assembly manual (specify year)	each
AL14960	70-72	Factory assembly manual (specify year)	each

SHOP MANUALS

A shop manual is the single best investment you can make if you own a collectable car. They explain fully the operation, overhaul, removal, electrical, trim, glass installation, etc. Easy to understand language, full size and exactly like the original in every detail.

AL16650	64	Chevelle Shop Manual	each
AL17450	65	Chassis service manual	each
AL17460	65	Chassis overhaul manual	each
AL17410	66	Chassis service manual	each
AL17500	67	Chassis service manual	each
AL17600	68	Chassis service manual	each
AL17700	69	Chassis service manual	each
AL17800	70	Chassis service manual	each
AL17801	71	Chassis service manual	each
AL17802	72	Chassis service manual	each

OWNERS MANUALS

Every car had one of these in the glove box when new.

IDIDIT STEERING COLUMNS

Chevelle, El Camino & Beaumont Volume 9

Phone: (905)627-4527 Orders: 1-866-767-2787 Fax: (905)627-3210

Interior

We can now supply the popular Ididit steering columns for the A-bodies. Each are fully wired and comes equipped with 4-way flashers, self canceling turn signals, horn wiring, and the Ididit Aluminum Dress-Up kit (aluminum levers & knobs). Column shift columns also come equipped with a built in neutral safety switch as well as an automatic shift mechanism which will use the stock dash indicator. All Ididit columns use a strong 1" DD shaft and an industry standard 3 7/8" GM wiring harness connector. They are designed for use with the stock steering wheels, post 1969 steering wheels or others can be used with optional adaptor.

BUCKET SEAT BRACKETS

Thinking of replacing the bench seat over to bucket seats? Then you would need these to be able to mount the inside of the buckets to the floor on either side of the tunnel. These bolt or weld into place depending on preference. Does both seats. A663100A brackets are preferred for new floors.

SEAT BELTS

Chevelle, El Camino & Beaumont Volume 9

Phone: (905)627-4527 Orders: 1-866-767-2787 Fax: (905)627-3210

Interior

These lap belts are a replacement for the 1955 - 1957, but will look good in any vehicle. Many people have commented on these to look similar to seat belts found on airplanes. Hardware is also included. Generally, 74" is used in the fronts and 60" in the rear seats. Let us know the trim number and we can supply the closest match.

BA929010 Seat belt (74")(black) pair
BA929020 Seat belt (60")(black) pair

2 DOOR HT & CONVERTIBLE INTERIOR SIDE PANELS

A lot has happened to improve interior panel quality and selection. We can supply door and quarter upholstery many ways. **Note:** Don't forget your Trim # for colour selection, and choose the part number below.

Selection 1 - If you have your old panels, you can re-use the little emblems, any stainless trim strips (to 1968) and upper curved rails and inner windowfelts (1968 - 1972). This is the economical method, and it takes a little effort, but most people have used this method for years. Parts Unlimited Inc. (P.U.I.) will continue to be our major source of these top quality yet economical side panels.

Selection 2 - Recently P.U.I. has developed "Original Style" GM. panels. These panels have cardboard inserts glued under each pleat giving a chiselled look and are more firm. They also have the small vertical chrome emblems installed. We recommend this approach for show cars, as we feel the difference is not great, but will give the fussy restorer an interior a little more exact like original.

Selection 3 - P.U.I. also supplies our #1 style, but almost totally assembled for you. the 1964-1967 panels come with emblems and/or chrome strips installed. The 1968-1972 panels comes with stainless strips (1968), small vertical chrome emblems installed (1970-1972) curved top rails installed complete with original style windowfelts and lock ferrules, and only lack the push-in clips to the door, and "Malibu", "SS" or "SS 396" emblems. These panels eliminate most of the effort required to prepare them for hanging on the door.

Selection 4 - 1964-1972 P.U.I. "Original Style" panels are assembled as in selection 3. These allow P.U.I.'s premium panels to easily go on your doors and quarters. They also include the small vertical chrome

emblems installed.

NOTE: Early Beaumonts may require GT0 panels. Call and we will ensure accuracy. We do not have new Beaumont panel emblems, or Sport Deluxe or SD emblems.

Note: El Camino assembled door panels are slightly different for the 69-72, but they are the same price. Please specify for El Camino.

4 DOOR SEDAN & WAGON INTERIOR SIDE PANELS

The wait for the 4 door sedans and wagons was over with the introduction of the 70-72 Chevelle 4 door sedan and wagon door panels last year. Featuring the same quality as the two door line, these panels are made by P.U.I., and since then P.U.I. has completed their line, which ranges from 1964 through 1972 and covers most original colours. Please specify the year when ordering.

A971250	68	Interior door panel mouldings (front only)	pair

HEADLINERS

There are many variations of headliners available on the market today. Look at your existing headliner to determine the type of cloth or vinyl used. When an exact pattern of material is no longer available, a similar suitable replacement material can be used. Most factory colours are available. We sell the headliners two ways. Our **DELUXE** headliners come with covered sail panels, where our **STANDARD** headliners do not. Both come with extra material to recover the sunvisors. **PLEASE SPECIFY YEAR, MODEL, COLOUR AND A DESCRIPTION OF THE MATERIAL USED.**

Note: Covered sail panels are included unless specified.

Note: In 1966, there were two designs for the 2 door hardtop sail panels. Early designs measured 3 1/2" wide by 15" tall, while the later used a larger 32" wide by 12" tall. Early 4 door sedans did not use sail panels while the later did.

Note: For 1968 Chevelles, please specify whether the headliner used 5 or 6 bows.

A930000	64-72	Deluxe headliner (2 door HT & El Camino)	each

CARPETS

Chevelle, El Camino & Beaumont Volume 9

Phone: (905)627-4527 Orders: 1-866-767-2787 Fax: (905)627-

Interior

We now have two reliable sources for carpets. Between both our suppliers we can supply carpets for most cars and trucks from 1949 right into the 90's! Materials and colours are available to match almost any vehicle's interior. These carpets are factory moulded and comes with the jute backing and sewn in heel-pad.

Don't forget to order a carpet for your newer car or truck, too.

Why drive every day in a shabby environment?

A940000	64-74	Carpet (80/20 loop)(specify year/colour)	each
A940500	75-77	Carpet (cut pile)(specify year/colour)	each

VINYL TOPS

Seems out of place in the interior section, but that's where other catalogues list them. Our vinyl tops, or Landau tops are made with the correct Levant grain vinyl and sewn with Dacron bonded thread, dielectrically double seamed to give it the correct appearance. Available in black, white, buckskin, green and the custom colour, dark blue. Available for **MOST** models. Please specify year, colour and model when ordering.

Interior

PACKAGE TRAYS & INSULATION

The package tray is often sun-baked or water stained over the years as it is the piece between the rear window and rear seat. It features coloured textured cardboard and a vinyl strip that matches the interior colour. Available in most original interior colours and available for hardtop models only. Please specify year & colour when ordering. Keep in mind when shipping a package tray, it is as expensive as the tray itself. It is recommended to get the rear seat to trunk board at the same time to save on shipping.

A968500	64-72	Package tray	each
A968600	64-72	Mesh package tray	each
A969200	64-72	Package tray insulation	each

REAR SEAT TO TRUNK BOARDS & INSULATION

Often called a trunk divider, the rear seat to trunk board is the panel that finishes off the trunk area by hiding the seat springs from sight. Available for most models. Please specify year and model when ordering. It is recommended to get the package tray at the same time to save on shipping.

A969500	64-72	Rear seat to trunk board	each

RetroSound™

Modern Sound for your Classic

This is a breakthrough classic car radio offering flexible mounting options with infiniMount shaft/bracket system (patent pending), USB input for MP3/WMA digital file playback from popular flash devices, this is awesome-- no iPod needed, use ANY Flash Drive/Thumb drive with your digital files on it!!!, There's even a front panel Auxiliary input so you can plug in any device you want too!! Remote control and hideaway installation capability. The Model One was created to meet the needs of classic car enthusiasts for a radio that maintains the classic in dash look of the vehicle while offering modern playback capabilities from today's digital music sources. An optional 94" remote mount infrared "eye" allows for complete hideaway placement of the Model One, allowing a completely stock appearance. Any car, RV, motorcycle! Modify the faceplate and the radio Not your dash!

The included U Bracket allows for under dash mounting options and the unit can be mounted virtually anywhere due to its small 3.54" w X 6.57" d X 1.57" h footprint. Advanced installers can unscrew the Model One's faceplate and adjust its cant/angle to allow for even more customization! There are multiple faceplate & knob kits available, and RetroSound even offers a Universal faceplate that fits the Model One's faceplate which allows the installer to use the integrated break away tabs to modify all aspects of height & width of the plate, and even drill in their own shaft holes to fit virtually any car! This radio is a true problem solver for tough to fit applications, its unique bracket system combined with small mounting size and incredible feature set is setting the classic radio market on its side, you will not find any radio that will fit in more cars out of the box than this one, we guarantee it!

Unit specs:

- LCD Display w/ enhanced viewing angle & daylight compatible
- LCD Display shows MP3/WMA track names
- AM/FM PLL tuner w/ 30 presets
- 50W x 4 (Integrated amplifier)
- 2pr RCA pre amp outputs to add an external amplifier
- on board CD Changer controller output (to control optional 10 Disc changer) will work with any Sanyo compatible unit
- Rear mounted USB port, plug in any USB flash drive and play MP3 / WMA files directly off the drive
- Patent Pending INFINIMOUNT adjustable shaft system w/ removable Universal bracket (included)
- Insulated bracket system and external shaft system reduces electrical noise inherent in older vehicles
- Front Aux input, plug in any MP3 player or other portable device, (cell phone, etc)
- Full Function 18 key remote control Note, you don't need the optional cable unless you're remote mounting it
- Main unit is remote mountable and comes with a metal U bracket for mounting under the seat or a glove box
- OPTIONAL external IR sensor w/ 94" cable, allows for easy remote operation via the included remote control
- Adjustable faceplate angle, allows mounting of faceplate display to virtually any dash
- Small 3.54" w X 6.57" d X 1.57" h installation size.

RetroSound™

Modern Sound for your Classic

Why purchase RetroSound™ speakers over your original or "other" commercially available speakers for your classic car?

Check out the exploded view below to learn more about the detail and quality that goes into each speaker we make!

This is an optional accessory for the RetroSound Model One radio, it allows you to remotely operate the model one if the main unit is out of view. Simply install the Infrared receiver in an unobtrusive portion of your dash (Cigarette lighter, blank area on the dash, etc) and if you've mounted the Model one in a glove box, or under the seat, you can still use the remote that came with your Model One to control all functions of your unit! The Model one unit can be used WITHOUT the shafts attached, so this gives some amazing flexibility for a self contained "mini" in vehicle entertainment system that has modern digital playback capabilities!

RS-MODEL1	all	RetroSound model 1 AM/FM radio with face kit (specify year)	kit

Enhance your sound quality with these quality plastic moulded kick panel speaker assemblies! These kicks sounds great and affords a "no modification" fit!

These speakers are a perfect fit into the original kick panel area and features 6.5" three way speakers at **80 watts** power handling!

Or if you want you can upgrade these to Pioneer 150 watt speakers. (most models)
Without speakers also available (selected models only)

Dual Front Speakers

Since at least 2 speakers are required for stereo units Custom Autosound has designed and manufactured dual speaker assemblies! These **30 watt** assemblies are pre-wired to plug in instantly to our radios! These speakers can also be used as a rear speaker in some vehicles! Some vehicles need a bracket to aid in installation of these speakers and are pre-attached for you. Please call and we'll get what you need.

Want more power in your speakers? How about our Kenwood **50 watt** dual front speaker upgrade?

Chevelle, El Camino & Beaumont Volume 9

Custom Autosound

Dual Voice Coils (DVC)

Dual Voice Coils will give the best possible sound and power handling from OEM speaker locations. They give up to 70% more cone area than the conventional speaker set-up and provide **140 watts**. Both stereo channels connect to one speaker. Call us to determine which series your vehicle requires.

Custom Autosound USA-CD10 10 CD Disc Changer

For use with new model Secretaudio SS, USA-5 and USA-6. (Manufactured after 05/03) this 10 disc changer connects directly with Custom Autosound radios. On the USA models, the changer works off the buttons on the radio face, and for the Secretaudio SS model, the changer works from the RF (radio frequency) remote

control. CD-10 features: 1 bit times oversampling, twin digital-to-analog converter, 3 beam laser tracking, disc select up/down, track up/down, 2 way scan and shuffle, play and pause control, program repeat, antishock and vibration free design -horizontal or vertical mounting. CD-10 Dimensions: 9 3/4" (w) x 3 1/2" (h) x 6 3/4" (d)

ANTUV-HIDE Hidden Amplified Antenna

For the best AM/FM reception nothing works better than a 31" vertically mounted antenna mast. Recognizing that application is impossible on some vehicles our improved amplified antenna is the next best thing. Mounts on the inside top of windshield (or rear package tray) for best performance. Note radio signals cannot penetrate metal.

Do not attempt to hide this unit under the dash. Requires 12 volts.
