"Your Satisfaction Is Our Success"

Welcome to Antique Chevrolet Parts

Thank you for taking the opportunity to browse our catalogue. We have filled this catalogue with the largest selection of quality restoration parts on the market today. To that end, we have even gone to the extent to list the same part more than once if it is available from different sources, such as if the part was made in the USA or offshore. It has been our experience that the offshore parts are quite comparable to their US-made counterparts. However, due to the economics of the world, the offshore parts generally tend to be less expensive than the US-made parts. As usual though, there are exceptions to this rule and we will do our best to advise you if there is a tangible difference between the parts. As the restoration parts market is ever-expanding, it is impossible to list every item that is available in this catalogue. Therefore, if you don't see something listed in our catalogue that you need, please give us a call and we will see if we can get it for you. Sometimes these "quotes" can take some time as our orders must take priority, but we will answer your questions as quickly as we can. Thank you for your patience and understanding in this regard. As you can see, our parts catalogue and our price list are separate. We have taken this route in an effort to keep you as informed and as up to date as possible. It is much easier to update separate price lists and catalogues than it is if they are combined. We believe that this catalogue will be one of the most helpful tools that you will have in the restoration of your vehicle.

ORDERING INFORMATION

We gladly accept orders over the telephone, by fax, mail, email and of course if you are in the area, at our shop. No matter what the method, the procedure remains basically the same.

In most cases, we will require all of your vehicle information, your name, address and a daytime telephone number. Please be prepared with the part numbers and part descriptions that you require. All orders must be accompanied by a Visa or a MasterCard number and expiration date for security purposes.

Please contact us using your method of choice, and we will get your order rolling.

Please note that we don't have a secure web site at this time for ordering purposes. Also, please do not include any credit card information via email. Please call with this information.

OBTAINING YOUR ORDER

PICKING YOUR ORDER UP

If you are local to us, and you would like to pick your order up, you are welcome to do so. We look forward to meeting our customers in person whenever possible. **No need to call us to see if your order is in, because we will call you as soon as we have all, or the majority of your order.** Once we have notified you that your order is ready for pick up, you have one week to contact us to arrange pick up and payment. **After one week, if you haven't made arrangements for pick up and payment of your order, you will be contacted and advised that payment of your order will be charged to the credit card that you provided us with at the time that your order was initially placed.** You can then pick up your order at your earliest convenience. Otherwise, parts may be returned to stock and the order may be considered cancelled.

HAVING YOUR ORDER SHIPPED

If you are not local to us, we can ship your order to you. We try to get as much of your order together as possible before we ship it to you in order to keep your shipping costs down. If we have to backorder an item or items to you, we will follow up with subsequent shipments when it seems reasonable to do so. However, if you have specific needs, let us know and we will try our best to accommodate you. We can ship to either residential or business addresses, although it is best to have the order shipped to a business address. Certain oversized items can only be shipped to a business address, which we will advise when necessary. All orders are insured against loss or damage.

We typically use Canada Post, CanPar and Fedex for our carriers. We have found them to be the most reliable and economical carriers. If you have another preferred carrier, **we must be provided with your specific account number with that carrier.** A packaging & handling fee will still apply, based on the time and materials required to package the shipment and completing your carrier's documentation.

For some larger shipments we must use a trucking firm. We will decide which one is best at the time of the shipment. It is preferred that we are provided with a business address when these truck shipments are required.

In some cases, we may have your parts drop shipped directly from the supplier. In these cases, the supplier uses the best means possible based on their experience. Choosing your own carrier in these cases is not possible.

In most cases the shipping charge cannot be determined until the shipment has been packaged. The rate is determined by the destination and the weight (either by actual weight or by dimensional volume) of the shipment. Therefore, if required, we can only estimate the cost of a particular shipment.

Handling charges are dependent upon the time and materials required to package the shipment. In any event, our handling charges are more than reasonable given the care and diligence required to ensure that your goods are packaged safely.

Our minimum "Shipping & Handling" charges are \$3.00 for an envelope and \$12.00 for the smallest boxed shipment. We combine the two charges into one on your invoice.

Please inspect the condition of the packaging of your shipment when received before you sign for it. If there are any visible signs of damage, note them in writing with the carrier. In most cases like this, we will provide you with a replacement shipment and we will handle the damage claim with the carrier. The damaged item is usually retained by the carrier or returned to us.

If you receive a shipment, sign for it, and then notice that it is damaged, contact the carrier right away. You then must contact us. Keep all packaging and parts related to the shipment. They may be required if an inspection of the damaged shipment needs to be made. Once again, in most cases, a replacement shipment is made to you and we handle the damage claim with the carrier. The carrier will usually retain the damaged item.

Lost shipments are replaced by us and the loss claim is handled by us.

On occasion and subject to approval, we will send a shipment "Cash on Delivery". We prefer not to, but we may on occasion to do so for our customers, depending on the circumstances. An extra COD fee applies. Payment in advance by certified cheque or money order may be required instead.

INSPECTING YOUR PARTS

Whether you have picked your parts up at our shop or if we have shipped them to you, inspect them as soon as you get them! Please check and make sure that what you received is what you were invoiced for; check the colour, check the fit, check the descriptions on the labels, check, check, check! We realize that parts can be stockpiled months in advance of use, but the longer you have something, the more difficult it is for us to rectify a problem, either internally or with our suppliers. Please help us to avoid a possible uncomfortable situation and **inspect your parts thoroughly as soon as you receive them and let us know within 30 days.**

If a problem arises with an order that you have received, please contact us right away and we will do everything possible resolve the problem to everyone's mutual satisfaction.

Welcome to Antique Chevrolet Parts

AVAILABILITY OF PARTS

We stock a large selection of these items in our warehouse in Dundas and we draw from a number of local sources, where possible, which helps make delivery times better than ever. If we don't have something in stock, delivery times to us vary from a couple of days to two to three weeks, depending on the source. We can "put a rush" on parts that we have to order in, but that usually involves air freight from the USA which tends to be **very** expensive. Also, many of these parts are manufactured when we order them and the manufacturers are generally unwilling or unable to adjust their production schedules to accommodate specific requests. We know that you want your parts quickly and we will do our best to get them for you as quickly as possible.

On occasion, certain items may be on backorder from our preferred supplier. In cases such as this, please let us know if you would like us to try a secondary source. The price of the part may be a little more, but sometimes if you need something quickly, it is unavoidable. Consider also that this option is not always available to us.

EXCHANGES AND RETURNS

If for some reason you need to exchange something, we typically need to receive the part that you wish to exchange back at our shop for inspection before we can consider replacement. If you are not local to us, you may be required to mail back (by Canada Post ground service) the item to be exchanged. If applicable, return freight costs will be refunded to you. All exchanges must be authorized in advance and accompanied by a copy of your receipt of the original purchase. **A 30 day time limit applies to all exchanges & returns.**

All returns must be authorized and accompanied by a copy of your receipt of the original purchase. Returns may be subject to restocking charges. The restocking charge depends on what is being returned, but it is typically 30%. Some items such as literature, electrical items, wiring and special order items are non returnable. All return shipments must be prepaid.

PRICING

We do our best to establish our prices at a reasonable and competitive level. Due to fluctuations in the Canadian dollar and ever changing supplier costs, this can be a challenge. Rest assured that we are constantly updating our prices and we will do our best to keep prices accurate and competitive. If there has been a dramatic price change in an item that you have ordered, we will let you know about it.

WEBSITE

Check our website from time to time as we update our "Current Specials", with new parts offered at introductory prices, close-outs and over-stock items priced to sell here at Antique Chevrolet Parts. Check it out at www.antichechev.com

Exterior Mouldings, Chrome Parts & Trim

REAR PANEL MOULDINGS

The plastic rear panel moulding is made by Ted Williams Enterprises and he offers a Limited Lifetime Warranty. These are made with the same new type plastic and chrome plating process that is used on new vehicles today. **Note:** The 70-72 rear panel mouldings will fit the 68-69 Novas as well. Custom panels do not have emblem holes.

Weatherstrips, Gaskets & Rubber Parts

DOOR WEATHERSTRIPS

All of our door weatherstrips have the pins installed and moulded ends where original. Careful installation using our GM weatherstrip cement (see B309200) will give a superb fitting product.

| | | | |
|---------|-------|--|------|
| X300000 | 62-67 | Door weatherstrips (2 door sedan) | pair |
| X300250 | 62-67 | Door weatherstrips (HT/conv) | pair |
| X300350 | 62-67 | Door weatherstrips (front, 4 door sedan/wagon) | pair |
| X300500 | 62-67 | Door weatherstrips (rear, 4 door sedan) | pair |
| X300750 | 62-67 | Door weatherstrips (rear, 4 door wagon) | pair |
| X301000 | 68-74 | Door weatherstrips (2 door) | pair |
| X301250 | 68-74 | Door weatherstrips (front, 4 door) | pair |
| X301500 | 68-74 | Door weatherstrips (rear, 4 door) | pair |
| X301510 | 75-79 | Door weatherstrips (2 door) | pair |
| X301530 | 75-79 | Door weatherstrips (4 door, front) | pair |
| X301535 | 75-79 | Door weatherstrips (4 door, rear) | pair |

| | | | |
|---------|-------|---------------------------------------|------|
| X301600 | 62-64 | Windshield pillar post seals (conv) | pair |
| X301700 | 62-63 | Convertible top weatherstrip (7 pcs.) | set |

ROOF RAIL WEATHERSTRIPS

| | | | |
|---------|-------|--------------------------------------|------|
| X301750 | 62-65 | Roofrail weatherstrips (2 door H.T.) | pair |
| X302250 | 66-67 | Roofrail weatherstrips (2 door H.T.) | pair |

WINDOWFELT KITS

We offer two kinds of windowfelts. Authentic and replacement styles.

Authentic style windowfelts are made from original materials from the manufacturers that made them for GM. Most feature a small rounded stainless bead and all have the rubbing blocks where needed.

Note: Please specify year and model when ordering.

| | | | |
|---------|-------|--|-----|
| X601760 | 62-65 | Windowfelt kit (2 door HT)(authentic) | kit |
| X601855 | 62-63 | Windowfelt kit (conv)(authentic) | kit |
| X602005 | 62-65 | Windowfelt kit (2 door sedan)(authentic) | kit |
| X602255 | 62-65 | Windowfelt kit (4 door sedan & wagon)(authentic) | kit |
| X602300 | 62-65 | Windowfelt kit (wagon tailgate)(authentic) | kit |
| X602600 | 66-67 | Windowfelt kit (2 door HT)(authentic) | kit |
| X602610 | 66-67 | Windowfelt kit (2 door HT)(outers)(authentic) | kit |
| X602800 | 66-67 | Windowfelt kit (2 door sedan)(authentic) | kit |
| X603050 | 66-67 | Windowfelt kit (4 door sedan)(authentic) | kit |
| X603100 | 66-67 | Windowfelt kit (wagon tailgate)(authentic) | kit |
| X603300 | 68-72 | Windowfelt kit (2 door)(authentic) | kit |
| X603305 | 68-72 | Windowfelt kit (2 door)(outers)(authentic) | kit |
| X603405 | 73-74 | Windowfelt kit (2 door)(authentic) | kit |
| X603410 | 75-79 | Windowfelt kit (2 door)(4 pc)(authentic) | kit |

Economy style windowfelts are very good replacements. They are made from a generic felt that features a flat strip of stainless. These are fine if cost is more important than originality.

Note: Please specify year and model when ordering.

| | | | |

TRUNK & TAILGATE WEATHERSTRIPS

| | | | |
|---------|-------|---|------|
| X302500 | 62-74 | Trunk weatherstrip | each |
| X302505 | 73-74 | Hatchback weatherstrips | each |
| X302550 | 62-67 | Wagon tailgate seal | each |
| X302600 | 75-79 | Trunk weatherstrip (slips over pinchweld) | each |

WEATHERSTRIP ADHESIVE

To do a superior job use the genuine GM black weatherstripping cement (not the yellow brand or silicon) between the pins to prevent "bridging" or "bulging" on hot days. One tube typically does one vehicle.

FACTORY FIT WIRING HARNESSSES

M. Parker Autoworks Inc. (a.k.a. Factory Fit or American Auto Wire) has been manufacturing quality wiring harnesses for General Motors vehicles from 1955 to 1982 for nearly 20 years. The Factory Fit® line of wiring harnesses is widely known as the symbol of excellence in after market wiring components. **Note:** When ordering, please give as much information on your vehicle as possible, such as transmission, dash characteristics, model, accessories etc...

The **Classic Update Kit** is a complete wiring system that allows for the addition of modern conveniences in yesterday's vehicles - without compromising wiring appearance or integrity. There are no other kits on the market that compare to the depth of features and ease of installation that the Classic Update Kit offers. All **Classic Update Kits** were built around, and in conjunction with, other industry leaders so our kits accept the connections of many top name aftermarket manufacturer's products such as, Autometer, Classic Instruments, Dakota Digital, Flaming River, Hot Rod Air, Ididit, Stewart Warner, Vintage Air, and VDO. **Classic Update Kits** are engineered specifically for the exact requirements of the vehicle. **Note:** Other years are currently in development as we speak!

X500878 69-72 Classic update kit

kit

69-72 Chevy Nova

- 1** Replacement headlight switch with internal 30 amp circuit breaker included. Retention collar nut, adjustable length shaft, and custom knob are also included.
- 2** Standard turn signal flasher, hazard flasher, and horn relay mounted on fuse panel.
- 3** Fuse box designed to fit in original location. All required hardware supplied. New ATO fuse allow easy fuse and circuit breaker accessibility. Harness is laid out and formed to allow for nearly all after market accessories such as; gauge packages, wiper systems, heat and air conditioning systems, etc.
- 4** Original switch connector bodies! (Exclusive to American Autowire)
- 5** Steering column connectors will plug directly into most after market steering columns as well as 1969 and later GM columns which utilize stock GM turn signal switches. The original column can also be wired by using the supplied mating connector and terminals.
- 6** Original Dash Panel instrument Cluster Connector.
- 7** Along with wiring for your original dome/interior lighting we have included separate under-dash light sockets.
- 8** Instrument Cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. All original terminals, connectors (exclusively from American Autowire), and light sockets are also supplied for original cluster gauges. However, the best aspect of the disconnect system is that any gauge cluster package can be easily and neatly wired in. This includes AUTOMETER, CLASSIC INSTRUMENTS, COVAN CLASSICS, DAKOTA DIGITAL, STEWART WARNER, and VDO just to name a few.
- 9** Rear body harness assembly is designed to plug into the main harness in the original connector bodies. Flexibility in harness design allows for original or custom routing. Rear body wiring includes backup light wires and mating connectors for backup light leads. License plate lead, connectors, and terminals included. Fuel tank sender wire and terminal included.
- 10** EXCLUSIVE! You'll find all the original style light socket pigtailed into every aspect of this system making it the most complete system of it's type in the industry!
- 11** New floor dimmer switch is provided. Wire length and connection accommodate original floor mount dimmer switch.
- 12** Original bulkhead connector for the engine and front light wiring is included and ready for installation. Original routing of the new harness without any body modifications!
- 13** Engine wiring includes connectors for original points type as well as H.E.I. distributors. Power and tach connectors supplied for GM H.E.I. distributors. Alternator connectors are supplied for GM "SI" series internally regulated alternators. GM "CS" series alternator adapter is available separately.
- 14** Front lighting includes extra long leads for special routing when custom under hood appearance is desired. All headlight, park light and directional light connectors and terminals are provided, as well as a switched trigger wire for electric fan relay (usually recommended with AC).

FRONT DISC BRAKE CONVERSION KITS

We have tried a few different suppliers and we have found that the **Right Stuff Detailing** has the best kit available for your 15" wheels at the right price. A complete disc brake conversion kit is available and includes the following:

- Booster with dual master cylinder, bracket & rod with clevis to mount to the firewall (see side bar for optional sizes available for extra cost)
- 2 rotors
- 2 hoses
- Dust caps
- roller bearings
- disc brake spindles
- Proportioning valve & hardware
- 2" drop spindles (where applicable)
- Detailed instructions
- 2 calipers & pads
- 2 seals
- set of caliper brackets with hardware
- Mounting bolts
- Backing plates (dust shields)(Note! does not work with 2" drop spindles)
- Bleeder kit
- Optional upgrades available

The complete disc brake kit does not include the hard lines from the proportioning valve to the brakes. It is so much easier if you buy them, however. Makes the whole job much easier, and will save you money in the long run.

| | | | |
|----------|-------|--|-----|
| X650075 | 62-67 | Front power disc brake changeover kit | kit |
| X650075A | 62-67 | Front manual disc brake changeover kit | kit |
| X650075B | 62-67 | Front power disc brake & drop spindle changeover kit | kit |
| X650080 | 68-72 | Front power disc brake changeover kit | kit |
| X650080A | 68-72 | Front manual disc brake changeover kit | kit |
| X650080B | 68-72 | Front power disc brake & drop spindle changeover kit | kit |

TAKE YOUR CHOICE!

- 7" dual diaphragm booster. Use if vacuum is low
- 8" dual diaphragm booster. Use if vacuum is very low
- 9" single slimline booster. Good for most conversions
- 9" Delco style booster. Use for 64-66 authentic appearance & for 67-72 if clearance of 11" is a problem
- 11" Delco style booster. Looks authentic for 67-72. Lots of vacuum

OTHER ALTERNATIVES

(add \$50.00 to the changeover kit)

- 9" Delco style booster. Stamped "Delco Moraine" for authenticity
- 11" Delco style booster. Stamped "Delco Moraine" for authenticity

14" FRONT DISC BRAKE CONVERSION

Now you can keep your original 14", 5 bolt drum brake wheels! The special caliper brackets plus a different set of rotors, calipers, hoses & bearings are included to be used with your original spindles. **Note:** this kit has the same booster options found on the previous page!

REAR DISC CONVERSION KIT

We can now offer rear disc conversion kits available from Right Stuff Detailing. Please measure you're the width of your rear axle flanges (should be 3.125") to ensure you get the appropriate kit. The complete kit includes the following;

- GM rotors
- New loaded calipers
- Caliper brackets & spacers
- Bracket hardware
- Flex hoses & brackets
- Emergency brake cables

FACTORY ASSEMBLY MANUALS

These manuals are reprints of the actual factory instruction manuals and they are full of useful exploded views for that body-off restoration project.

| | | | |
|---------|-------|--|------|
| XL14950 | 62-69 | Factory assembly manual (specify year) | each |
| XL14960 | 70-72 | Factory assembly manual (specify year) | each |

SHOP MANUALS

A shop manual is the single best investment you can make if you own a collectable car. They explain fully the operation, overhaul, removal, electrical, trim, glass installation, etc. Easy to understand language, full size and exactly like the original in every detail.

| | | | |

IDIDIT TILT STEERING COLUMNS

We can now supply the popular Iddit steering columns for the X-bodies. Each are fully wired and comes equipped with 4-way flashers, self canceling turn signals, horn wiring, and the Iddit Aluminum Dress-Up kit (aluminum levers & knobs). Column shift columns also come equipped with a built in neutral safety switch as well as an automatic shift mechanism which will use the stock dash indicator. All Iddit columns use a strong 1" DD shaft and an industry standard 3 7/8" GM wiring harness connector. They are designed for use with post 1969 steering wheels or others can be used with optional adaptor.

SEAT COVERS

All our seat cover sets are correctly patterned and sewed precisely for an authentic factory fit. They are comprised of the most correct vinyls, backings, and welting available anywhere -- guaranteed! Please be sure to give all the necessary information when ordering, such as year, model, colour (trim number), a/c option, etc. All seat covers are vinyl except where noted.

2 & 4 DOOR SEDAN & 4 DOOR WAGON SEAT COVERS

Finally, the wait for the 4 doors is over with the introduction of the 1962 to 1967 Nova 4 door sedan and wagon seat covers. As the original seat covers had a cloth insert, many times unique only for the Novas, P.U.I. had to compromise by re-styling the seat covers using the SS dielectric inserts in place of the cloth. Please specify year, model and colour when ordering.

SIDE PANELS

Our side panel kits come unassembled. These are the most correct dielectrically pressed panels on the market. The correct vinyls are heat sealed to new boards and proper emblems or buttons are attached on most models. During installation is a good time to replace worn windowfelts (fuzzies). The side panel kit prices below are for full sets; unassembled side panel kits for front doors only are available: please phone or fax for prices. All are for 2 door models unless specified otherwise.

| | | | |

HEADLINERS

There are many variations of headliners available on the market today. Look at your existing headliner to determine the type of cloth or vinyl used. When an exact pattern of material is no longer available, a similar suitable replacement material will be used. Most factory colours are available. Sunvisor and rear quarter sail material is included for the hardtops and sedans. Available in most factory colours and in basketweave, tier weave, or Impala leather. **Note:** Specify year, model & colour when ordering!

CARPETS

We now have two reliable sources for carpets. Between both our suppliers we can supply carpets for most cars and trucks from 1949 right into the 90's! Materials and colours are available to match almost any vehicle's interior. These carpets are factory moulded and come with the jute backing and sewn in heel-pad.

Don't forget to order a carpet for your newer car or truck, too. Why drive every day in a shabby environment?

PHONE: (905)627-4527 ORDERS 1-866-767-2787 FAX (905)627-3210

Interior Parts

Here's an exterior item you should keep in the trunk when you are not using it. Like any valuable investment, your Nova will benefit greatly from a little extra care and protection. This Evolution car cover represents the finest on the market in terms of practicality, durability, appearance and value. This is one of the most rain resistant and breathable car covers on the market. Each cover is produced using high quality Polypropylene Evolution 4 fabric from Kimberly Clark. A high tech 4 layer fabric, Evolution is lightweight, remains pliable in all weather conditions and won't rot, smell, or mildew. The outside and inside layers are made of long fibers which make the fabric tough but very soft and non abrasive. The middle layer is made of shorter fibers that catch water but allow the air to circulate. Also includes double stitched seams with an elastic band in the front and rear making installation easy! Specially developed for harsh outside weather conditions and will not freeze even in the coldest temperatures. Each cover is water resistant and breathes keeping your paint free from unwanted moisture between the paint and the car cover which could ruin your paint.

VINYL TOPS

Seems out of place in the interior section, but that's where other catalogues list them. Our vinyl tops, or Landau tops are made with the correct Levant grain vinyl and sewn with Dacron bonded thread, dielectrically double seamed to give it the correct appearance. Available in black, white, buckskin, green and the custom colour, dark blue. Available for **MOST** models. Please specify year, colour and model when ordering.

| | | | |
|---------|-------|-------------------------------------|------|
| X914100 | 62-74 | Vinyl (landau) top (black or white) | each |
| X914110 | 62-74 | Vinyl (landau) top (specify colour) | each |
| X914120 | 75-79 | Vinyl (landau) top (black or white) | each |
| X914130 | 75-79 | Vinyl (landau) top (specify colour) | each |

PACKAGE TRAYS & INSULATION

The package tray is often sun-baked or water stained over the years as it is the piece between the rear window and rear seat. It features coloured textured cardboard and a vinyl strip that matches the interior colour. Available in most original interior colours and available for hardtop models only. Please specify year & colour when ordering. Keep in mind when shipping a package tray, it is as expensive as the tray itself. It is recommended to get the rear seat to trunk board at the same time to save on shipping.

| | | | |
|---------|-------|--|------|
| X914600 | 62-65 | Rear package tray (2 door, H.T./sedan) | each |

SEAT BELTS

Protecting you classic is a good idea, but don't forget about protecting the passengers and driver! Whether the vehicle had them or not, it is generally a great idea to install or replace worn-out and faded seat belts with these new replacement style seat belts, even if it is only for safety sake. These lap belts are a replacement for the 1955 - 1957, but will look good in any vehicle. Many people have commented on these to look similar to seat belts found on airplanes. Hardware is also included. Generally, 74" is used in the fronts and 60" in the rear seats. When in doubt, give us the trim number and we'll match up a colour for you. **Note** - a pair is enough for two people.

RetroSound™

Modern Sound for your Classic

This is a breakthrough classic car radio offering flexible mounting options with infiniMount shaft/bracket system (patent pending), USB input for MP3/WMA digital file playback from popular flash devices, this is awesome-- no iPod needed, use ANY Flash Drive/Thumb drive with your digital files on it!!!, There's even a front panel Auxiliary input so you can plug in any device you want too!!, Remote control and hideaway installation capability. The Model One was created to meet the needs of classic car enthusiasts for a radio that maintains the classic in dash look of the vehicle while offering modern playback capabilities from today's digital music sources. An optional 94" remote mount infrared "eye" allows for complete hideaway placement of the Model One, allowing a completely stock appearance. Any car, RV, motorcycle! Modify the faceplate and the radio Not your dash! The included U Bracket allows for under dash mounting options and the unit can be mounted virtually anywhere due to its small 3.54" w X 6.57" d X 1.57" h footprint. Advanced installers can unscrew the Model One's faceplate and adjust its cant/angle to allow for even more customization! There are multiple faceplate & knob kits available, and RetroSound even offers a Universal faceplate that fits the Model One's faceplate which allows the installer to use the integrated break away tabs to modify all aspects of height & width of the plate, and even drill in their own shaft holes to fit virtually any car! This radio is a true problem solver for tough to fit applications, its unique bracket system combined with small mounting size and incredible feature set is setting the classic radio market on its side, you will not find any radio that will fit in more cars out of the box than this one, we guarantee it!

Unit specs:

- LCD Display w/ enhanced viewing angle & daylight compatible
- LCD Display shows MP3/WMA track names
- AM/FM PLL tuner w/ 30 presets
- 60W x 4 (Integrated amplifier)
- 2pr RCA pre amp outputs to add an external amplifier
- on board CD Changer controller output (to control optional 10 Disc changer) will work with any Sanyo compatible unit
- Front mounted USB port, plug in any USB flash drive and play MP3 / WMA files directly off the drive
- Patent Pending INFINIMOUNT adjustable shaft system w/ removable Universal bracket (included)
- Insulated bracket system and external shaft system reduces electrical noise inherent in older vehicles
- Front Aux input, plug in any MP3 player or other portable device, (cell phone, etc)
- Full Function 18 key remote control Note, you don't need the optional cable unless you're remote mounting it
- Main unit is remote mountable and comes with a metal U bracket for mounting under the seat or a glove box
- OPTIONAL external IR sensor w/ 94" cable, allows for easy remote operation via the included remote control
- Adjustable faceplate angle, allows mounting of faceplate display to virtually any dash
- Small 3.54" w X 6.57" d X 1.57" h installation size.

RetroSound™

Modern Sound for your Classic

Why purchase RetroSound™ speakers over your original or "other" commercially available speakers for your classic car?
 Check out the exploded view below to learn more about the detail and quality that goes into each speaker we make!

This is an optional accessory for the RetroSound Model One radio, it allows you to remotely operate the model one if the main unit is out of view. Simply install the Infrared receiver in an unobtrusive portion of your dash (Cigarette lighter, blank area on the dash, etc) and if you've mounted the Model one in a glove box, or under the seat, you can still use the remote that came with your Model One to control all functions of your unit! The Model one unit can be used WITHOUT the shafts attached, so this gives some amazing flexibility for a self contained "mini" in vehicle entertainment system that has modern digital playback capabilities!

Custom Autosound

Enhance your sound quality with these quality plastic moulded kick panel speaker assemblies! These kicks sounds great and affords a "no modification" fit! These speakers are a perfect fit into the original kick panel area and features 6.5" three way speakers at **60 or 80 watts** power handling! Or if you want you can upgrade these to **Pioneer 120 or 160 watt** speakers. (most models) **Note:** Without speakers also available (selected models only)

Custom Autosound

Since at least 2 speakers are required for stereo units Custom Autosound has designed and manufactured dual speaker assemblies! These **30 watt** assemblies are pre-wired to plug in instantly to our radios! These speakers can also be used as a rear speaker in some vehicles! Some vehicles need a bracket to aid in installation of these speakers and are pre-attached for you. Please call and we'll get what you need.

Want more power in your speakers? How about our Kenwood **50 watt** dual front speaker upgrade?

Dual Voice Coils (DVC)

Dual Voice Coils will give the best possible sound and power handling from OEM speaker locations. They give up to 70% more cone area than the conventional speaker set-up and provide **140 watts**. Both stereo channels connect to one speaker. Call us to determine which series your vehicle requires.

Custom Autosound USA-CD10 10 CD Disc Changer

For use with new model Secretaudio SS, USA-5 and USA-6. (Manufactured after 05/03) this 10 disc changer connects directly with Custom Autosound radios. On the USA models, the changer works off

the buttons on the radio face, and for the Secretaudio SS model, the changer works off the RF (radio frequency) remote control. CD-10 features: 1 bit times oversampling, twin digital-to-analog converter, 3 beam lase tracking, disc select up/down, track up/down, 2 way scan and shuffle, play and pause control, program repeat, antishock and vibration free design -horizontal or vertical mounting. CD-10 Dimensions: 9 3/4" (w) x 3 1/2" (h) x 6 3/4" (d)

ANTUV-HIDE Hidden Amplified Antenna

For the best AM/FM reception nothing works better than a 31" vertically mounted antenna mast. Recognizing that application is impossible on some vehicles our improved amplified antenna is the next best thing. Mounts on the

inside top of windshield (or rear package tray) for best performance. Note radio signals cannot penetrate metal. Do not attempt to hide this unit under the dash. Requires 12 volts.

Application Chart

Dots Indicate Which Radio Models are Available for Specific Vehicles.
